

## Junior Programmer

Passport Health, the leader in preventive medicine and the largest network of travel medicine clinics in the nation, is currently accepting applications for the position of Jr. Computer Programmer for Passport Health's proprietary software and Website initiatives.

This opportunity is unique as Passport Health enters an important growth phase and implements new strategic initiatives for the upcoming travel and flu seasons.

An ideal candidate will have a proven record of successful web development work and is expected to have a stalwart can-do attitude, robust work ethics and vision. The candidate will also have strong interpersonal skills as well as excellent communication skills.

### Relevant Experience:

**Languages:** ColdFusion, SQL, PHP, ASP, HTML, XML, AJAX

**Operating Systems:** Windows XP, Vista, Server 2008, DOS

**Technologies:** ColdFusion, Adobe Dreamweaver; Flash is a plus

**Databases:** MS SQL, MySQL, MS Access, Excel

The programmer will be working at Passport Health's corporate headquarters in Baltimore, MD. He/she will report directly to the Director of IT/IS and the Corporate Director of Business Development. He/she will work closely with the Senior Programmer.

This is a full time position with benefits.

2 years experience required or equivalent time spent on projects and internships.

Cold Fusion expertise preferred.

Cover letter and references are required.

Send Resume, Cover Letter and 4 References to [jorge.castillo@passporthealthusa.com](mailto:jorge.castillo@passporthealthusa.com) .

No applications will be accepted without the aforementioned.
